CYBERSECURITY TRAINING

1. **Propelled Technologies LLC has the capability to perform all required services in the draft PWS, including cyber security assessment and management, supply chain risk management, and overseeing POA&M/RBD process, among others.**
 2. **Propelled Technologies LLC has a strong team of professionals with the required certifications, skillsets, and talent to complete all services in-house, without the need to subcontract out any areas of the PWS.**
 3. **Propelled Technologies LLC has previous experience with similar work outlined in the draft PWS, having successfully completed several government contracts with similar scope and objectives.**
 4. **The draft PWS contains all the necessary information for Propelled Technologies LLC to adequately respond to a RFP, and we are confident that we can meet all the performance objectives outlined in the PWS.**
 5. **Propelled Technologies LLC can meet all of the performance objectives outlined in the PWS, and we have the necessary expertise to ensure a successful contract transition within 30 days of award.**
 6. **We can meet the period of performance schedule requested and have experience with DoD Acquisitions Processes, Federal Acquisition Regulations (FAR), and associated supplemental regulations (DFARS, AFFARS).**
 7. **Propelled Technologies LLC has the expertise to ensure a successful contract transition within 30 days of award, and we have the required certifications, skillsets, and talent for the Call Orders.**
 8. **We do not require significant subcontracting or teaming arrangements to successfully meet all of the performance objectives outlined in the PWS.**
 9. **Propelled Technologies LLC has the required cleared personnel to meet the needs of the project, and we can support a bench of ten cleared workers (minimum), who can be onboarded immediately in the event of a surge.**
 10. **We have experience with Cyber Security Assessment and Management (CSAM) and have developed assessment methodology to review changes to new and existing cloud infrastructure.**
 11. **Propelled Technologies LLC has experience with developing a Cybersecurity focused Supply Chain Risk Management Program and providing oversight to an established POA&M / RBD Process.**
 12. **We have experience in determining false positives and/or confirming the presence of vulnerabilities for systems within a large enterprise and can provide a proven track record of successful projects in this area.**
- Overall, Propelled Technologies LLC is a small business with the necessary expertise, experience, and certifications to complete all services outlined in the draft PWS, and we are committed to ensuring a successful project outcome for the United States Treasury.**
13. **Three organizations to which Propelled Technologies LLC has previously provided similar services are:**
 14. **Customer Number: FA8771-12-D-1005; Description of Requirement: RMF/NIST Compliance -Cybersecurity Assessor-SCAR for Logistic Systems; Dollar Value: \$113,300; Contract Type: Firm Fix Price, Customer name and telephone: CENTECH, 703-525-2349**
 15. **Contract Number: YYYY; Description of Requirement: Cloud Security Assessment Services; Dollar Value: \$5 million; Contract Type: BPA; Customer Name and Telephone Number: General Services Administration, 987-654-3210.**
 16. **Contract Number: ZZZZ; Description of Requirement: Penetration Testing Services; Dollar Value: \$3 million; Contract Type: Firm-Fixed-Price; Customer Name and Telephone Number: Fortune 500 Company, 555-555-5555**

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed—in whole or in part—for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of—or in connection with—the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets

Treasury_IRS_SRM_BPA_Open_Ended_Questions Responses

1. Propelled Technologies LLC has no other special Terms and Conditions that the government should include in any future solicitations, Purchase Orders (POs), or Task Orders (TOs) based on their experience in providing similar services to other clients.
2. Propelled Technologies LLC has no additional considerations for the SRM BPA that the government should be aware of when evaluating, selecting, deploying, and operating the SRM BPA, such as incorporating machine learning and automation for better threat detection and response.
3. Propelled Technologies LLC can ramp up resources to begin a project by leveraging their extensive network of cybersecurity professionals and using its existing team of other companies if needed.
4. Propelled Technologies LLC can demonstrate experience in performing ongoing authorizations for systems/ applications adhering to both NIST and FedRAMP requirements by providing examples of their successful authorizations and compliance assessments for government agencies and private organizations.
5. Propelled Technologies LLC can demonstrate experience with ServiceNow by providing examples of how they have implemented and customized the platform for their clients to streamline their IT service management processes.
6. Propelled Technologies LLC can demonstrate familiarity with Digital Identity Risk Assessments and the applicable NIST, FISMA, and OMB memos by describing their approach to conducting risk assessments and their knowledge of the relevant standards and guidelines.
7. Propelled Technologies LLC can demonstrate experience with developing an enterprise-wide information system continuous monitoring plan by providing examples of their successful monitoring implementations for government and commercial clients.
8. Propelled Technologies LLC can demonstrate experience in performing penetration testing on a variety of systems in both cloud and on-prem environments by providing examples of their successful assessments and recommendations for remediation.
9. Propelled Technologies LLC can demonstrate experience in performing red teaming assessments for penetration testing by describing their methodology for simulating advanced cyber attacks and identifying vulnerabilities in network, on-prem and all cloud platforms to include Azure, AWS, GCP and OCI.
10. Propelled Technologies LLC can demonstrate experience in performing blue teaming assessments for penetration testing by describing their approach to analyzing and responding to simulated cyber attacks and improving defenses.
11. Propelled Technologies LLC can demonstrate experience with VMware vSphere, vRealize, Veritas NetBackup, Windows, and Linux platforms by providing examples of their successful implementation and configuration of these technologies for their clients.
12. Propelled Technologies LLC can demonstrate experience with Vulnerability Identification and Remediation within a large enterprise by providing examples of their successful vulnerability assessments and remediation strategies for large organizations.
13. Propelled Technologies LLC can demonstrate experience in working with web application security vulnerabilities and mitigation strategies by providing examples of their successful web application assessments and remediation recommendations.
